

PRESS RELEASE

Shopping trip to Turkey

DeLclima roof top units installed in the Occasion Shopping Mall in Istanbul.

Treviso, January 2015: DeLclima, through its subsidiary **Climaveneta**, supplied 4 roof top units to the new **Occasion Shopping Center in Istanbul.**

The **Eren Tekstil** company was established in 1990, in partnership with the world-renowned French Devanlay Group for the production and distribution of Lacoste. In the following years Eren Goup had agreements to also distribute other famous brands like Swatch, Burberry's, Gant, Nautica and SuperStep growing it in regards to companies represented, operating stores and countries covered. Today the Group, with 24 years of experience, has nearly **300 stores** and over **500 retail outlets** in 14 countries.

The Occasion Outlet in Istanbul, Turkey is a large department store selling many different brands with a total space of 15.000 m².

To provide complete air handling and ventilation for such a largely voluminous environment they have installed 4 DeLclima **WSM CE 0604**, air-to-air rooftop units. At Occasion in Istanbul they have selected WSM units in CE version: a totally autonomous roof top unit equipped with a free cooling function. This **innovative** technical device allows the use of cool or cold external air as a free source of cooling capacity and is **extremely successful** in locations featured by continental climate and in applications operating all year round, like retail and data centers.

DeLclima's participation in the "Occasion" project follows **many other projects** in retail and shopping centers all over the world and with many **prominent clients** such as IKEA, H&M, Auchan, Carrefour, Marks & Spencer, Media Markt, Saturn, Fnac and many others.

DeLclima (DLC:IM) is specialized in Heating, Ventilation, Air Conditioning and Refrigeration (HVACR).

DeLclima designs, produces and markets innovative, energy efficient products and provides value added services for Indoor Climate Control in commercial buildings and for Refrigeration (ICC&R) of industrial processes and ICT applications through CLIMAVENETA and RC GROUP. DeLclima also operates in the radiator business through DL Radiators.

DeLclima companies share the mission of increasing well-being and industrial productivity by providing high efficiency, reliable, economically viable and eco-sustainable solutions, in particular by embracing renewable energy sources.

DeLclima manufactures in three continents and operates worldwide with subsidiaries, distributors and service companies, with particular focus in Europe, China and India. The company, headquartered in Italy, has been listed on the Milan Stock Exchange since 2012 and was previously the Professional Division of the DeLonghi group.
